

SUDHARSAN BALAJI V

Lead Solution Consultant | PLM Project Leadership, Scrum Delivery & Solution Design (Enovia 3DExperience)

Coimbatore, India | +91 9597917881 | Sudharsan6295@gmail.com | [linkedin.com/in/sudharsan-balaji-65a06791](https://www.linkedin.com/in/sudharsan-balaji-65a06791)

PROFESSIONAL SUMMARY

Lead Solution Consultant with 10 years of experience across Enovia 3DExperience PLM implementation, upgrades, migration, and production support. 3+ years leading project management and Scrum delivery for global manufacturing, life sciences, and industrial clients — managing end-to-end delivery (budget, risk, resourcing, and stakeholder communication) while directly mentoring cross-functional teams of up to 10 engineers. Currently conceptualized and am architecting TECHNIA's first on-premise-to-cloud transition framework for 3DExperience/Enovia, building the migration methodology from the ground up. Professional Scrum Master (PSM 1) certified and Google Project Management Professional Certified.

KEY CAREER ACHIEVEMENTS

- Currently designing TECHNIA's on-premise-to-cloud transition framework for 3DExperience/Enovia — from concept and architecture through migration methodology (ongoing initiative, self-driven).
- Delivered measurable cost and timeline improvements (15–30%) across 5+ enterprise PLM engagements for global manufacturing and life sciences clients, while sustaining 100% project transparency through structured governance and reporting.
- Managed and mentored cross-functional delivery teams of up to 10 members across three employers, progressively taking on Project Manager, Scrum Master, and Product Owner responsibilities alongside hands-on technical delivery.

CORE COMPETENCIES

Project & People Management: Project Planning & Delivery, Scrum Master, Product Owner, Team Leadership & Mentoring, Budget & Cost Management, Risk Management, Stakeholder & Vendor Management

Technical Leadership & Solution Design: Cloud Transition & Migration Framework Design, Solution Design, Enovia 3DExperience (11X–24X), TECHNIA Integration Framework (TIF), Production Support & Incident Management

Languages & Tools: Java, SQL, MQL, TCL, Python, HTML, XML, JavaScript, CSS, Eclipse, JIRA, GIT/GitHub, ServiceNow, Confluence

PROFESSIONAL EXPERIENCE

TECHNIA (Addnode Group India) | India

Jun 2022 – Present

Lead Solution Consultant — Project Manager, Scrum Master & Product Owner

- Spearheading a ground-up initiative to design TECHNIA's first on-premise-to-cloud transition framework for 3DExperience/Enovia — proposed the concept, and am architecting the migration methodology, framework structure, and rollout roadmap (in progress).
- Manage full delivery lifecycle as Project Manager and Scrum Master across concurrent Enovia 3DExperience DevOps, upgrade, and migration programs for global manufacturing and life sciences clients — planning, resourcing, budget, and risk — reducing project costs by up to 15% with zero-downtime transitions.
- Run sprint planning, backlog prioritization, and retrospectives as Scrum Master, while owning stakeholder communication and structured reporting that sustains 100% project transparency.

- Serve as Product Owner for a Material Compliance Management (MCM) implementation for a life sciences client; directed the 3DExperience 2021x → 2024x upgrade (SOW, licensing, testing, documentation) and mentored 8+ team members.
- Designed and built a proprietary migration tool using the TECHNIA Integration Framework (TIF) plus automation scripts, cutting migration time by 30% and improving data-verification accuracy.
- Partner directly with Dassault Systèmes to de-risk software release (SR) fix deliveries and prevent go-live delays across managed accounts.

NTT DATA | India

Jul 2019 – Jun 2022

Software Development Senior Analyst — Team Lead

- Led a cross-functional team of 7–10 engineers supporting Honeywell's Enovia V6 2013x PLM platform, owning implementation planning, estimation, and high-priority incident resolution via ServiceNow.
- Spearheaded end-to-end data extraction and migration strategy from Enovia to Teamcenter, ensuring accurate, spec-compliant data mapping across cross-platform PLM systems.

Infosys | India

Aug 2016 – Jul 2019

Senior System Engineer

- Resolved 40–50 defects in Enovia 3DExperience R2017x for Alstom, stabilizing a newly upgraded production application and improving system performance and reliability.
- Customized Enovia R2017x UI and business logic (UI3 Components, Triggers, MQL, JPOs, JSPs) for Bayer, translating client requirements into scalable solutions across Engineering Central, IP Classification, and Project Execution modules.
- Authored test scripts and technical documentation while merging heavily customized functionality, resolving longstanding performance blockers and improving system responsiveness.

CERTIFICATIONS

- Professional Scrum Master (PSM)
- Google Project Management Professional
